**Up to
50 feet**

Even if you are only thinking of the viability of having an elevator in your home, public area or place of business, use this guide to help you design your future project. Whether it's a new installation or retrofitting, the Victorian into an existing home, the process can be quite simple and straight forward.

AmeriGlide manufactures and installs hundreds of elevators across North America. Whether you need elevators or any of our mobility and accessibility products, AmeriGlide has the resources and know how to help you with any sized project.

Live in Comfort at Home

The Victorian is equipped with a winding drum system that offers a smooth and comfortable run. With its wide range of cab styles and designs the Victorian uses quality material, wood finishes, and fixtures. Cabs can be custom-built with precision and beauty by our experienced craftsmen here in North America. Each step in the design process is guided by your choice of wood species, handrails, light fixtures, gates, and finishes.

The Victorian door system allows for flexibility in your home. The convenience of our sliding door system on the elevator car, and automatic or manually operated swing doors on the landings preserve your design elements and privacy, while maintaining the maximum use of your home. Whether you're building your dream home or simply want to enjoy the freedom to access all levels of your present home, we have the elevator that will fit your lifestyle.

Gates and Doors

Enjoy the convenience of our sliding door system on the elevator car, and automatic or manually operated swing doors on the landings.

Hoistway Layout

Whether you are building a home, designing a public or commercial place, or adding an elevator to an existing home, planning and installing an elevator can be overwhelming, particularly for builders new to the process.

AmeriGlide's experienced team provide expert consultation to help you navigate the entire process from start to finish — from specification to framing, installation to inspection. Our goal is to make your elevator installation process as simple as possible. This includes manufacturing a cab that fits your specific hoist way measurements.

General technical information for a Victorian same side entry and exit a popular hoistway diagrammed to the left. This drawing is strictly for informational purposes only.
